### Subaru 5 Year/75,000 Kilometre Capped Price Servicing Program<sup>1</sup>

All new 2024 Subaru Impreza vehicles enjoy the benefits of the Subaru 5 Year/75,000 Kilometre Capped Price Servicing Program<sup>1</sup>, giving you ultimate peace of mind in the knowledge that the maximum prices for your standard scheduled service are locked in for the term of the Program. This means that you will know the maximum amount that you will pay for applicable scheduled services. All with the confidence that specialist Subaru technicians will be looking after your pride and joy using only Genuine Subaru Parts.

Whilst the actual price may vary from retailer to retailer, rest assured that if you bring your vehicle to a participating authorised Subaru Service Centre, you will not be charged more than the published Capped Price for your vehicle for the service interval in question during the Program period.

Our Capped Prices include all items that are required as part of the standard scheduled service as set out in the Maintenance Schedule of your Warranty and Service Handbook. This includes labour, genuine parts, factory specified oils and fluids and even the environmental levy and supplies charge (which includes items such as oil and waste recycling and/or removal, workshop supplies etc.) as well as inspections and adjustment of all items listed in the Maintenance Schedule for that service interval. Subaru Capped Price Servicing is only available at participating Subaru Retailers.

See [subaru.com.au/service/capped-price-servicing](https://subaru.com.au/service/capped-price-servicing) for full program terms and conditions.

### Is the capped price the same for every eligible model?

The Capped Price for each eligible Subaru Impreza is calculated in accordance with the specific Maintenance Schedule for that model (which may vary from model to model). Furthermore, the Capped Price for each model may vary from service interval to service interval. Individual parts and vehicle systems are affected differently, depending on the distance traveled, time in use and driving conditions. For some scheduled services, additional parts have to be inspected and/or replaced and a longer period of time is spent by our factory-trained technicians completing the service. Your Subaru Service Consultant will explain what will be performed during each scheduled service and why, but rest assured that each of the standard scheduled service are covered by our Capped Price Servicing Program during the first 5 years of ownership or 75,000 kilometres, whichever occurs first.

### Why aren't all services the same?

Everyone's driving habits are different – from start-stop city driving to highway cruising – and therefore so are the service requirements for your Subaru Impreza. Your service requirements may vary from the scheduled service intervals as set out in your vehicle's Warranty and Service Handbook. If any additional work is required over and above the standard scheduled service, your Service Consultant will of course seek your approval before any additional work is performed.

### Why is regular servicing important?

It's not only the distance traveled that determines when you need to have your Subaru Impreza serviced. In fact, vehicles that are used for regular short, stop-start trips, such as city driving, are often more at risk of premature engine and battery wear as the engine may be working harder. Other fluids in your car, such as brake and transmission fluids, can also deteriorate over time. So to help preserve and maintain the performance, safety and retained value of your 2024 Subaru Impreza, make sure you follow the recommended service intervals, be it every 12 months or 15,000 kilometres, whichever comes first.

### Why use Genuine Subaru Service?

When it comes to servicing your Subaru there are plenty of choices, but only one knows your Subaru inside out. It took some of the finest minds in Japan to build this incredible vehicle so don't just let anyone tinker with it. Entrust it to a Subaru trained professional.

### Your Subaru Service Centre

- Has factory-trained, qualified technicians who are backed up by Subaru Australia's technical support team
- Uses the very latest Subaru-specific diagnostic equipment and specialty tools
- Use and recommend Genuine Subaru Parts which are designed, tested and manufactured to the factory's exacting standards

You'll also have the reassurance of a full Subaru service history to safeguard the ongoing value of your investment.
