

TRAILSEEKER

Model Year 2026

5 Year / 75,000 Kilometre Capped Price Servicing Program

With our "All-new" Subaru Trailseeker Capped Price Servicing Program¹ you'll be in complete control on and off the road, and ready to discover the amazing in everyday.

Subaru Capped Price Servicing applies to every standard scheduled service applicable during the specific program period, either time or kilometre based, whichever occurs first. The Capped Prices are locked in for the term of the Program, which means that you'll know upfront the maximum amount that you'll pay for each applicable scheduled service. All with the knowledge that specialist Subaru technicians are committed to using only Genuine Subaru Parts, so you're free to enjoy a world discovered.

Whilst service pricing may vary from Retailer to Retailer, rest assured that if you bring your vehicle to a participating authorised Subaru Service Centre, you will not be charged more than the published Capped Price for your vehicle for the service interval in question.

The recommended scheduled service interval for new 2026 Subaru Trailseeker models is every 12 months or 15,000 kilometres, whichever occurs first.

Scheduled Service Intervals ¹	Electric Models ²
