Co-pilot for the everyday

The Subaru Impreza pulses with advanced Subaru safety technologies, making it the perfect co-pilot for every journey.

Putting the human factor centre stage, Subaru Impreza has been designed from the perspective of the driver for a seamless journey. In collaboration with an expert medical school, Subaru designers studied the body's natural movement and applied a human-centred design approach to every aspect of the interior for refined driver and passenger ergonomics.

With everything within optimal reach, the cockpit delivers an intuitive and fully immersive experience. Advanced Subaru tech, including the latest generation EyeSight® Driver Assist and Vision Assist, serve as your co-pilot to a drive that helps keep you, your passengers and those around you safe. Intelligent features like Lane Centring Function and Adaptive Cruise Control, are designed to help reduce driver fatigue on longer trips. While for an aerial view of your Subaru Impreza, the Panoramic 360 Degree View Monitor¹ displays the area around you. So when taking off from A to Beyond, Subaru Impreza has your back.

1. Panoramic 360 Degree View Monitor available on Subaru Impreza AWD 2.0R and Impreza AWD 2.0S.

Gripping experience

Drawing inspiration from Subaru's rally and motorsport roots, this hot hatch is ready to unleash an exhilarating, fun drive. Built upon five generations of innovation, Subaru Impreza inspires new discoveries every day thanks to impeccable handling and superb driving confidence.

Hit up the best outta town spots with your friends, tackle country roads and revel in Subaru Impreza's serious performance credentials. The low centre of gravity and Subaru Global Platform meld seamlessly with the superior grip, dynamic control and balance synonymous with Subaru Symmetrical All-Wheel Drive and the iconic horizontally-opposed Boxer engine. While the lively Lineartronic® CVT matches your driving style for a performance that's naturally smooth, quiet and efficient, making choosing the Subaru Impreza, well, automatic.

When you're ready to change up the pace, Impreza is ready to please, with Subaru Intelligent Drive (SI-Drive) providing two driving modes to match your mood. Dial up the sportiness for a responsive drive, made to match Subaru's legendary all-round driving balance and grip. It's all part of the unique DNA that sets the Subaru Impreza apart.

Packed to go

The more you put in to every day, the more you get out of it – and that's what drives Subaru Impreza. Take the cargo area, with its wide flat load floor and expansive boot opening, you can effortlessly pack everything you need to make your day.

The Subaru Impreza cabin is designed for spontaneous adventures too, with a 60/40 split rear seatback that lets you customise your cargo and passenger space. Fold down one, or both of the rear seats to carry a larger load, with the flexibility to accommodate passengers big and small. Putting the fun into functional, the Subaru Impreza's versatility lets you take on adventures across town – or across the country.

Heart and soul

When fine-tuning every element of Subaru Impreza's dynamic attitude, the creators were unanimous that some things remained sacrosanct.

Symmetrical AWD

Boxer Engine

The heart and soul of Subaru Impreza owes its vitality to the intersection of two irreplaceable forces – the iconic horizontally-opposed Boxer engine and Symmetrical All-Wheel Drive system. Designed to sit lower and flatter in the engine bay than traditional engines, Boxer's unique design delivers less noise and vibration to the cabin, while the lowered centre of gravity improves stability, cornering and traction with the road.

Coupled with Subaru Impreza's symmetrical drivetrain, this configuration delivers innate balance from the ground up while driving engine power to all four wheels. With simultaneous power distribution, Subaru Impreza boasts twice the grip capacity, compared to conventional vehicles, resulting in better balance, superior handling confidence on slick city streets and outstanding driver enjoyment.

Safety and performance are built into the very core of Subaru Impreza, learn more about the advanced engineering at www.subaru.com.au/safety-active

Protecting you and your passengers throughout every moment of your journey always has been, and always will be, at the heart of everything Subaru does. Subaru strives to create innovative cars that protect you and your loved ones, whether they're in or outside the car.

Towards zero fatal road accidents by 2030¹

It's a philosophy that started with Subaru's first mass produced vehicle and saw Subaru achieve a number of world safety firsts.

Now, Subaru is proud to introduce its most important safety vision yet - working towards zero fatal road accidents in a Subaru vehicle by the year 2030¹. A vision underpinned by the four vital safety pillars of Primary, Active, Preventative and Protective safety that work together to achieve Subaru's 'All-Around' approach to automotive manufacturing. By combining holistic design principles and advanced safety technologies with cutting-edge future innovations, Subaru Impreza aims to provide inherent safety and peace-of-mind, to help you make the most of every moment.

Road user safety is expressed in the design of countless Subaru innovations www.subaru.com.au/safety

1. Subaru Corporation (the Japanese manufacturer of Subaru cars) has publicly stated its aim to reduce the number of fatal accidents in a Subaru vehicle to zero by 2030 as well as the number of fatalities among pedestrians, cyclists and the like as a result of a collision with a Subaru vehicle. For more information on Subaru Corporation's CSR initiatives visit www.subaru.co.jp/en/outline/about/zeroaccident/.

The EyeSight® Driver Assist system, is standard on Subaru Impreza.

EyeSight® Driver Assist

Second pair of eyes

This world-renowned preventative safety system is designed to operate like an ever-attentive second pair of eyes - to provide warnings, plus braking and steering intervention that is designed to help reduce driver burden, prevent accidents and save lives.

Subaru EyeSight® Driver Assist system incorporates a host of primary functions - Pre-Collision Brake Assist, Pre-Collision Braking System, Pre-Collision Throttle Management, Adaptive Cruise Control, Lead Vehicle Start Alert, Lane Departure Warning, Lane Sway Warning, Emergency Lane Keep Assist and Speed Limiter.

Intelligent features include Lane Departure Prevention which can assist the steering operation if the vehicle is about to unintentionally depart from its detected lane. Meanwhile, Lane Centring Function works with Adaptive Cruise Control to provide steering assistance, accelerator and brake functions to maintain position in the detected lane. Autonomous Emergency Steering, using EyeSight® cameras and the rear radar system, assesses the presence of other vehicles before assisting with evasive steering control, in the event it detects an impending collision.

You'll look at safety with new eyes when you learn more about Subaru's advancements at www.subaru.com.au/safety

A smart driving companion to have on your side, Subaru's Vision Assist uses embedded cameras and radar technology on Subaru Impreza to detect vehicles and obstacles you can't see. Combined with the forward vision features of EyeSight® Driver Assist technology, Subaru's Vision Assist empowers drivers with a sixth sense to support preventative safety.

PANORAMIC 360 DEGREE VIEW MONITOR¹

The Panoramic 360 Degree View Monitor¹ provides added visibility and precision to help with that perfect park.

Reverse Automatic Braking shown.

All knowing, all seeing

Subaru's Vision Assist can give drivers a greater awareness of the world around them. Using EyeSight® Assist Monitor, lights are projected onto the lower windscreen to alert the driver when the various safety functions are engaged. Blind Spot Monitor uses rear sensors to make lane changes safer, by warning of vehicles detected in the blind spot. Meanwhile, Lane Change Assist can detect fast approaching vehicles from behind in the adjacent traffic lane and warn the driver of their presence. Rear Cross Traffic Alert can warn the driver that another car is approaching when reversing out of a parking space. Meanwhile, if the vehicle sensors detects an obstacle behind the vehicle while reversing, Reverse Automatic Braking can apply braking if the driver doesn't react first.

Front View Monitor¹ on selected variants uses a grille mounted camera to capture images of the area in front of the vehicle to help avoid damage when parking. Side View Monitor¹ on selected variants, uses a camera in the passenger door mirror to show the distance of the front passenger side of the vehicle from the kerb or a parked vehicle. Meanwhile, High Beam Assist¹ on selected variants automatically adjusts the headlight beam to prevent dazzling other detected nearby road users, while maintaining a high level of light and visibility.

Designated crumple zones direct impact energy away from the passenger cell, while the Boxer engine is designed to slide below the cabin in a severe frontal collision.

Peace of mind protection

It has always been Subaru's purpose to design vehicles with a crucial advantage in road safety and occupant protection. While Towards Zero fatal road accidents in a Subaru vehicle by the year 2030¹ represents Subaru's ambitious future target, decades of astute observation, structural development and design research has informed the remarkable safety advances built into the 5 star ANCAP² safety rated Subaru Impreza.

The SGP and ring-shaped passenger safety cell absorb and direct impact force around the cabin, rather than through it.

An overwhelming feeling of protection is underpinned by Subaru Impreza's carefully engineered body structure and Subaru Global Platform, including the ring-shaped passenger safety cell. The ring-shaped passenger safety cell that cocoons occupants has been designed to absorb and direct the impact of a collision around the cabin, rather than through it. Meanwhile, the symmetrical layout of the All-Wheel Drive system and horizontally-opposed Boxer engine, is designed to allow the engine to 'submarine' under the floor during a severe frontal collision – protecting the cabin's occupants.

In addition, the chassis structure has been engineered to include crushable zones, absorbing collision energy to effectively protect passengers. While Subaru can't control every variable on the road, the inclusion of nine SRS³ airbags in Subaru Impreza can help reduce the possibility of serious injury in the event of a serious accident.

 This impressive line-up of advanced safety technologies is designed to protect you and your passengers on every journey. It's why the Subaru Impreza has been awarded a 5 star ANCAP² safety rating. Discover more reasons why Subaru Impreza gives you peace of mind protection at www.subaru.com.au/safety

2. The Australasian New Car Assessment Program (ANCAP) gives consumers consistent information on the level of occupant protection provided by vehicles in serious front and side crashes. Subaru Impreza tested in 2024. 3. SRS: Supplemental Restraint System. Effective when used in conjunction with seatbelts.

Subaru Impreza tackles driver distraction and fatigue with Subaru's ingenious Driver Monitoring System - Driver Focus (DMS)¹. This innovative system constantly monitors the driver's attention to help reduce the chance of accidents.

Driver Monitoring System¹

Always alert

Whether your journey is long or short, Subaru recognises that at times the driver may be distracted. Which is why DMS¹ has been developed to offer another layer of safety, coupled with personalised driver convenience.

Featuring advanced technology, the Subaru Impreza's DMS¹ uses near infrared LEDs and a camera designed to recognise when the driver's attention is waning or if they start to fall asleep. An alert can then warn the driver, reminding them to refocus on the road ahead.

The system's intelligent facial recognition can also identify up to five separate drivers and then automatically personalise the cabin to their preferences - adjusting the climate control setting and MID screen display.

Subaru Impreza AWD 2.0S

Welcome to the family

There are cars that simply get you from A to B, and then there are cars that empower you.

Buying a Subaru is like embracing life with both hands and knowing that nothing is going to stop you. When you buy a new Subaru you are welcomed into an owner's program that gives you access to a number of benefits.

SUBARU NEW CAR WARRANTY - 5 YEAR/UNLIMITED KILOMETRES¹

Every new Subaru purchased for private use is covered by a 5 Year/Unlimited Km manufacturer's national warranty. Visit www.subaru.com.au/owners/warranty or ask your Subaru Retailer for more information.

SUBARU CAPPED PRICE SERVICING²

With our Capped Price Servicing Program, you'll now know the maximum amount you will have to pay for your next scheduled service during the Program period. You'll also have peace of mind knowing that specialist Subaru technicians will be looking after your pride and joy using only Genuine Subaru Parts. For more information on our Capped Price Service Program visit: www.subaru.com.au/service/pricing/capped-price-servicing

1 MONTH HEALTH CHECK AND CHAT

The 1 Month Health Check and Chat is a free consultation within the first month after delivery of your new Subaru. It allows our factory-trained technicians to provide quick vehicle checks, and one of our Service Advisors will answer any of your questions to help ensure an ongoing, worry-free experience.

SUBARU'S MAP UPDATES³

If your new Subaru is fitted with a factory line fit navigation unit, your unit will be covered by Subaru's Map Update Program - guaranteeing you'll have access to the latest maps for the first 3 years of ownership.

1. Every new Subaru comes with a 5 Year/Unlimited Km warranty period, unless the vehicle is used as a hire car, taxi, ride share, rental, driving school, delivery or courier vehicle in which case the warranty period is 5 Year/150,000 Km (whichever occurs first). For full warranty terms and conditions, visit www.subaru.com.au/owners/warranty. 2. Every eligible Model Year 2025 onward Subaru Impreza comes with Subaru's Capped Price Servicing Program. Available at participating Subaru Retailers only and does not apply to rental and some other classes of vehicles.
